

# Insider Trading

---

⌚ If you know something relevant to Noble that isn't public, don't trade.

⌚ You can be liable for Insider Trading if an acquaintance or family member trades on information you told them. If someone doesn't have a business need to know, don't share it.

---

⌚ Insider Trading is assessed in hindsight. The consequences will always outweigh your financial gain.

⌚ Always follow internal procedures and, if you don't know what to do, ask Legal.
